## EXPERIENCE

### Happy, Blumenau/SC — *Teacher*

OCTOBER 2022 - DECEMBER 2022

Work as a teacher giving classes about web development (HTML, CSS Javascript) for teens and adults..

### Paytrack, Blumenau/SC — *Frontend Specialist Developer*

SINCE AUGUST 2021

Development of software for expense and corporate travel management. Use of technologies such as Java (Spring and Quarkus), JavaScript and TypeScript (Angular and React), Flutter, MySQL and integration with third-party applications.

I started at Paytrack on august 2021 as Experienced Developer and got promoted to Senior Developer on march 2022. Now, I am a frontend reference in the team, doing code reviews, technical analysis and helping to build better software.

### Philips, Blumenau/SC — *Experienced Full Stack Developer*

MARCH 2020 - AUGUST 2021

Development of international software for healthcare in the fiscal and purchasing area. Use of technologies such as Java, JavaScript (Node.js), Delphi and PL/SQL (Oracle Database).

I started at Philips on march 2020 as intern and got promoted to Jr. Developer on october 2020. I got promoted again on july 2021 to Experienced Developer.

### AutoAprova (Autokeet), Blumenau/SC — *Full Stack Developer (freelancer)*

MAY 2020 - JULY 2020

Development of a platform to help car dealerships with financing. Use of API REST and technologies such as JavaScript, AdonisJS, React and MongoDB.
